SShoreTel®

ShoreTel Connect Mobility App

LET YOUR EMPLOYEES BYOD

Put the power of a ShoreTel desk phone on their smartphones and tablets

Give your team every advantage. With the ShoreTel Connect mobility app, not only will they enjoy all the call handling and directory features of their ShoreTel desk phone, they'll also be able to fully collaborate. Conferencing, video calling, instant messaging and online meetings are easy from everywhere—even being the presenter of a web share that shows others your presentation.

With ShoreTel Connect mobility features, workers in the field will always appear professional because their caller ID will present their business number to customers. They can be reached through their single office number, and they never have to give a personal cell number to a customer again.

More than simple call forwarding to a user's mobile device, the Connect mobility app includes:
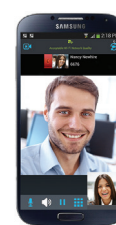

- **Today screen** of upcoming online calls and meetings has a **one-click "Join" button** for conferences that eliminates complicated dial-in numbers and passcode entries

- **Automatic Wi-Fi/cellular call handover**, especially important when entering a building that has poor reception or when travelling and needing to avoid cell data roaming charges

- **"Dual persona"** separation between business and personal calls, to keep business relationships professional

- **Peer-to-peer video calling** and **instant messaging** to let employees communicate how they want, when they want, where they want

- **SRTP security** for both voice and UC signals, even in public hotspots.

It's easy for authorized users to download the ShoreTel Connect mobility app and ShoreTel Conferencing from their iOS or Android app store. Authorization for services is provided by your system administrator through either ShoreTel Connect Director or ShoreTel Connect Portal.

BENEFITS
- Integrate employees' smartphones and devices seamlessly and securely
- Improve team professionalism and productivity
- "Join" button makes joining conferences and online meetings as easy as one click

Peer-to-peer video improves collaboration

Join meetings with one click

Communicate with more than one person at a time with both talk and text capability

ShoreTel. Brilliantly simple business communications.
